Subject: p-CBSA more

Hey Teresa,

I have a few minutes to catch up. I am glad we finally arrived at the answer on who within R9 is really the POC for the p-CBSA issue. So last week after our call with SRC I sent my contact in CalEPA a note asking for the 28-d study. She cc'd a few of her staff members in her response to me which ultimately resulted in one of them sending us the 28-d study. She, Gina Solomon, also inquired if we could have a call between NCEA/STSC and CalEPA to chat about p-CBSA. I plan on setting something up next week. I thought it prudent to keep our R9 colleagues in the loop thus the wild goose chase today on figuring who exactly the POC(s) are for p-CBSA in the Region(s). So if it is only Dan S. that is fine; if however you want to also loop Andrea or someone else from OLEM in as well that is fine too. Just need to let R9 know of our interaction with CalEPA. If they want to be on the call with CalEPA that is okay with me. Thanks
